Subject: Valdez Streets Redevelopment (Tribune Site Reuse; RO3149; Alta Waverly)

Brian and Peter,

I had a chance to review the Remedial Progress Report for the site and understand a more detailed Soil Management Completion Report is planned, and that you'll need additional time for that submittal. Technically it is late (due August 28th), but I also understand that more time is needed due to all of the events associated with the fire, so wanted to set a reasonable date for its submittal. When do you think you'll be able to submit it? And please recognize that it will go into a standard review loop of about 60 days, so if you have a hard deadline for a response and (hopefully) closure, then please account for our review time and a 30 day public comment period required for closure within that deadline.

Should you have questions, please let me know.

Thanks,

Mark Detterman
