Hi Patrick,

I am sorry to hear about the delays with the City. Provided the site remains in its current use as a parking lot, an extension should not be a problem. Per your request I have extended the report delivery date to December 31, 2017.

Mark: Due to delays processing our project with the City of Oakland, we would like to extend the period to remove the soil as outlined in our SMP through the end of 2017. Please confirm this is acceptable.

Thanks!
