Dear Mr. Quiambao,

I am in the process of reviewing the file for the subject case. As I read through the document entitled *Underground Storage Tank System Compliance Soil Sampling and Limited Remedial Excavation Report*, dated June 26, 2017 and prepared by DMI-EMK Environmental Services, Inc., it is unclear what happened to the stockpiled gravel referenced on page 2 of the document. I would appreciate being informed of what happened to this material.

Please present the discussion of the destination of the material in an electronic mail message to addressed to my attention by **August 28, 2017**. Note your response will be included in the case file.

Regards,
Keith Nowell
