**Subject:** RE: RO3278 Well Installation and Soil Boring Advancement Report Extension Request

Kathy,  
Thanks for the update on the project. Based on the problems, I've extended the deliverable dates to November 16<sup>th</sup>, and have updated Geotracker to reflect this.

**Subject:** RO3278 Well Installation and Soil Boring Advancement Report Extension Request

Mark,

Due to challenges with finalization of the access agreement and driller availability. The soonest we could schedule the work was September 26-28, 2018. Due to the timing of the drilling, we will not make the October 1, 2018 deliverable deadline for the *Site Investigation Report* and the *Third Quarter Groundwater Monitoring Report*. Based on the timing of the drilling and sampling, we would need until November 15, 2018 to complete the two reports. Please let us know if you have any problems with this request.

Kathy
