End: Tue 10/29/2013 5:30 PM
Duration: 0 hours

Phone call with Louis Cherry of American Precision Builders. Mr. Cherry indicated there was a problem with his client not being notified about the case at 3420 San Pablo in Oakland. I indicated that a Notification of Potential Case Closure was sent out which is the only notification required for this site. Mr. Cherry indicated that notifications must be sent to adjacent property owners for all tank removals. I indicated that I was not aware of this requirement. Mr. Cherry indicated that he did this for a living and knew the requirements. He asked whether the plume went under his clients property. I advised him to review the case file. He indicated this was a simple question and again asked if I knew the answer. I indicated that I wanted to be cautious given the tone of his questions and could not definitively answer his question. Mr. Cherry was unhappy with this answer and indicated that he would find out.
