BEI Job No. 207055

Mr. Steven Plunkett  
Alameda County Environmental Health Department  
1131 Harbor Bay Parkway, Suite 250  
Alameda, CA 94502

**Subject: Request for Report Submittal Extension  
1630 Park Street  
Alameda, California  
Fuel Leak Case No. RO0000008**

Dear Mr. Plunkett:

Per the Alameda County Environmental Health Department (ACEHD) letter of January 11, 2008, relative to the subject site, Blymyer Engineers, Inc. requests an extension in the submittal timelines to allow efficient coordination and requisite timing of multiple subcontractors for work in the public right-of-way, in particular the repair, redevelopment, sampling, and resurveying of well MW-4. Well MW-4 is located in an inner traffic lane on Park Street, a high volume traffic avenue. Permitting for this particular aspect of the planned work is additionally complex, due to the need for use of multiple subcontractors. In order to efficiently manage the proposed work, Blymyer Engineers requests the following timelines:

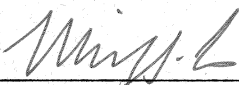

- March 31, 2008 – Submittal of Groundwater Monitoring Report
- May 5, 2008 – Brief data summary report with status of work, including tables of recent analytical data, site map with bore locations, preferential pathway survey, and recommendations for well installation locations, as appropriate. A submittal date for the final Soil and Groundwater Investigation Report will follow and will incorporate ACEHD response time relative to the brief data summary report.

Should you have any questions about this extension request, please call Mark Detterman at (510) 521-3773.

Sincerely,

Blymyer Engineers, Inc.
