PURPOSE

To discuss corrective actions at the site and establish a Project Schedule that incorporates planned construction & environmental investigation, cleanup, and regulatory review activities.

DESIRED OUTCOME

- Understanding of required environmental corrective actions;
- Developing a timetable mutually acceptable to all parties towards conducting site investigation leading to implementation of a corrective action plan (CAP), while allowing future development of this key urban site for the stakeholders, owner, prospective end-users, and the Alameda community.

DISCUSSION TOPICS

1. July 20, 2012 Directive Letter regarding environmental corrective actions
2. Development of an environmental cleanup and site development schedule

CONCLUSION (Meeting Summary; Action items; Follow-up)
