RE: REQUEST TO MODIFY GROUNDWATER MONITORING FREQUENCY
FROM QUARTERLY TO SEMI-ANNUAL

RECEIVED

9:42 am, May 18, 2009

Alameda County
Environmental Health

Dear Mr. Khatri:

GeoEnviro Services Inc. (GESI), on behalf of Restructure Petroleum Marketing Services of California (RPMS) has prepared this letter to request to modify the groundwater monitoring frequency from quarterly to semi-annual at Former EZ Serve 100877 located at 525 West A Street, Hayward, CA. This request is being made on the basis that hydrocarbon concentrations in groundwater have remained relatively consistent over the past year and a change in groundwater monitoring frequency to semi-annual results in a significant cost savings. This project is being reimbursed by the State Water Resources Control Board – Underground Storage Tank Cleanup Fund (USTCF). The case is a priority Class C and reimbursements of costs associated with this Site are severely delayed due to current economic conditions. GESI requests that groundwater monitoring activities commence during the third quarter 2009 (3Q09) and semi-annually thereafter.

If you have any questions regarding this letter request, please contact me at (805) 642-1668 or at jschaaf@geoenviroservices.com.

Sincerely,

GEOENVIRO SERVICES, INC.

Joseph P. Schaaf, P.G., C.Hg.
Principal Geologist
