Dear Mr. Chan:

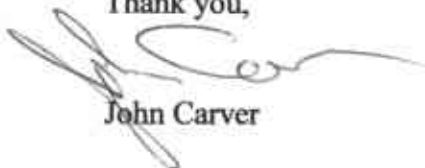

In response to the April 2, 2007 Alameda County Health Services Letter the following are being transmitted:

A set of the appropriate drawing plans prepared for the project by the project architect. These plans show the lot line to lot line devolvement with a full basement below the total structure.

At this time there is no collection of vested parties with addresses and names of nearby residences and businesses. Mr. Neil Cotter of Cotter & Coyle has been informed and will be collecting that information for transmittal to you.

There may be a delay in forwarding the balance of items requested in your letter of April 2, 2007. There may be a change in my status on the project and a replacement environmental consult may be retained by the project owner.

Thank you,

John Carver
