Phone Log; RO0000027  
April 26, 2016, 10:30 AM

Received a call from Brent Wheeler who is representing Augustine, the buyer for the site. The current property owner or seller are the Cotters.

Mr. Wheeler was asking whether we have received the GW Monitoring Report and Soil Vapor investigation work plan. To the best of my knowledge, we have not received the documents. Mr. Wheeler was aware of the last JET meeting, including the preliminary GW data and my email to the JET and asked whether his client should submit development plans to the City to move the case forward. I informed Mr. Wheeler that ACDEH still needs to review final reports and that he should contact Ben Henningberg with questions regarding funding and claim reassignments. Mr. Wheeler said that he understood ACDEH's position.
