Hello,

Can either of you forward a copy to Ann Kriozere. Apparently when I spoke with her earlier, I copied her e-mail down incorrectly.

The information on the link below describes how to claim your site.

http://www.swrcb.ca.gov/water_issues/programs/ust/electronic_submittal/

Go under Beginner's guide for instructions on how to claim your site.

Here are the requirements for uploading to Geotracker and the CCR reference so you can confirm the accuracy:

Pursuant to California Code of Regulations, Title 23, Division 3, Chapter 16, Article 12, Sections 2729 and 2729.1, beginning September 1, 2001, all analytical data, including monitoring well samples, submitted in a report to a regulatory agency as part of the LUST program, must be transmitted electronically to the SWRCB GeoTracker system via the internet. Additionally, all permanent monitoring points utilized to collect groundwater samples (i.e. monitoring wells) and submitted in a report to a regulatory agency, must be surveyed (top of casing) to mean sea level relative to NGVD88 and latitude and longitude to sub-meter accuracy relative to NAD 83. A California licensed surveyor may be required to perform this work. Lastly, pursuant to California Code of Regulations, Title 23, Division 3, Chapter 30, Articles 1 and 2, Sections 3893, 3894, and 3895, beginning July 1, 2005, the successful submittal of electronic information (i.e. report in PDF format) shall replace the requirement for the submittal of a paper copy.

I think you need to upload the well survey data and any monitoring data from 2001 on. You don't appear to have much but there may be some. I will hold off on sending in a letter to the USTCF until the end of April. Please let me know when you claim the site.

Regards,

Barbara Jakub, P.G.
