Subject: RE: 01S0590: ACDEH Correspondence RO35 & RO435

Laurent and Max,

Below is an email dated March 26, 2015 from John Wolfenden regarding the status of the cases in question. I knew it existed but was unable to locate it as the email does not appear in my archives. However, it is present embedded in another document. I hope this will expedite your research and findings.

Regards,
Keith

Subject: RE: Fuel leak cases RO35- Port of Oakland / Union Pacific Railroad and RO435 - Port of Oakland Port of Oakland / Union Pacific Motor Freight

Keith:

John Prall at the Port reminded me that the Water Board had taken on both of these cases over 10 years ago. Roger Papler here is the case manager for both of them. Please change the case manager to Roger Papler for both of them.

You also asked about Order 99-055. Attached is our 2006 rescission of Order 99-055.

Sincerely,

John D. Wolfenden, P.E.
Section Leader, Toxics Cleanup Division
San Francisco Bay Regional Water Quality Control Board

Subject: 01S0590: ACDEH Correspondence RO35 & RO435

Max,

You are listed as the case manager for the Port of Oakland under SCP case 01S0590. There are two opened UST cases with ACDEH lead 01-1716 and 01-1538 within that general Port area. According to the attached the letter, ACDEH is interested to administratively close these cases to release oversight to R2 based on the Port of Oakland Vision 2000 Program. I understand that the SB is not authorizing administrative closures. My recommendation is that you accept lead of these two UST cases if they are appropriately addressed through the Order 99-0055 framework.

Thanks.

Laurent Meillier
R2 UST Program Manager
