Don called her back 1/3/07.

Don thought it would be a couple weeks before he had a feeling of what was needed at the site, he would give her an answer in 2 weeks with a directive letter.

She was told by Golden Gate, Brent Wheeler, talked to Don & Don said it would be a couple months before he would review.

Issue of how long it takes, if Don says 2 months & its 5 months.

Don requested add'l piping removal & soil sampling. They did this work. Now need him to review report of work.

She will wait to hear from him in 2 weeks
