Thanks Erika,

I don't think it's required, (although it's a good question!); you can document that you incorporated the requested modifications in the report which would be uploaded. The County database is much more comprehensive than the Geotracker database; Geotracker only requires uploads from 2005 on (although earlier is accepted) and the County site includes pretty much all correspondence and other site details.

Hi Mark –

The letter for the 6601/6603 Bay Street site, dated 11 September 2009, has been uploaded to the County's ftp site. Two copies were uploaded, one for each of the RO#'s the site is listed under (i.e., 42 and 43). Please let us know if you would like us to upload the letter to GeoTracker as well.

Thank you,  
Erika

Hi Michelle,

As I think Barb mentioned I've recently inherited this project from her (and pretty much all of Emeryville). I do want to thank you for the letter. Have you uploaded it to the County's ftp site yet? Technically I can't read it until it has been accepted (but gosh I've already done that!). It would be appreciated.

Best,
