Michelle,

I did want to send a quick note and let you (all) know that I've not been able to get to the report this week and will be out on vacation next week, so won't be able to get to review the report in the generally allowed (and specified) time frame since the report was submitted. It is at the top of my pile currently, but the first week back will be very hectic (already). Unfortunately I'll need to request extra time to get to the review, also allowed within the regulatory framework. I would guess it'll be well under a month extra, but with the changing regulatory climate there have been many quick diversions / digressions from standard review procedures. Sorry for the delay.

Hi Mark-

Thanks for the update--hope you can get to it sooner, rather than later. I'm not surprised that you have had an up-tick in the closure requests. We are definitely looking for success on this one--it's been a long time in the waiting.

Thanks,
Michelle

Hi Michelle,

Struggling to get to it; as you might guess there been more than a few changes and requests due to the new closure policy. I had not responded to Jeff, figuring the acknowledgement that the report had been received was sufficient. It's purely a case of work load and time constraints, and I'm sure this is a site you'd like to help remove from the work load!

Best,
