Subject: California Syrup & Extract (RO46); Closure Request Followup

Mr. Mooney,

I wanted to followup on our directive letter of December 19, 2013. Despite the extensive discussion, ACEH may be able to close the case with one bit of information that you already possess at this time. As discussed in paragraph 3 of the letter ACEH needs to determine the type of building foundation at the site. I recall a half-set of stairs at the site that implies at least a partial basement; however, that set of stairs is no longer there. Can you provide the foundation details, such as the extent the building extends into the subsurface?

Thanks,

Mark Detterman
