Subject: Well Destruction Authorization, Fuel Leak Case No. RO0000058, Unocal #6129, 3420 35th Ave., Oakland, CA 94619; GeoTracker Global ID T0600101465

Dear Responsible Parties:

Thank you for submitting the well destruction scheduling information to Alameda County Department of Environmental Health (ACDEH). We requested the confirmation of the well destruction scheduling in our letter dated April 5, 2018 and received the information via your electronic mail dated April 24, 2018. We understand destruction for all wells associated with the subject case is scheduled for May 15 through 18, 2018.

The public comment period for responses regarding the potential closure of the subject case ended on April 20, 2018. No responses regarding the potential closure were received by ACDEH. Therefore, ACDEH authorizes the well destruction.

Monitoring Well Destruction and Waste Removal Activities

Following the well destruction, please provide ACDEH with a well destruction report according to the schedule outlined below. The well destruction report should document site activities, provide well destruction permit documentation, and documentation indicating that any remaining investigation, remediation, and well destruction derived waste have been removed from the site. The State Water Board's Well Destruction and Waste Removal Requirements Fact Sheet is included as an attachment.
