Hi Keith, John Prall from the Port of Oakland has contacted me about preparing a work plan to delineate residual contamination at the subject fuel leak case site. I understand the current due date is August 9, 2016 (this Tuesday) per your June 6, 2016 letter Work Plan Request (attached). We are preparing a cost estimate now to perform the work and would like to request an extension on the Ports behalf for the Work Plan due date to October 3, 2016 to allow time to get Port authorization, review existing materials and prepare the requested work plan. Please let me know if you'd like to discuss.

Regards, Dave
