Hi Hollis,

Thanks for the update. An extension does appear warranted based on driller availability. Please use this to document ACEH agreement with the requested extension. I'll update Geotracker shortly.

Subject: Technical Report for RO66 Former BP 11126

Mark:

The earliest we can get a driller for the work outlined in the attached Directive is November 24 – 25, 2014. Can we get an extension on the due date of the Technical Deliverable from December 5, 2014 to January 16, 2015? We received the Directive on October 1, 2014 so it was going to be a struggle to reach the original deadline.

Regards,
Hollis
