Nancy,

I am following up on our telephone conversation from earlier this afternoon in which we discussed a revised submittal date for the Data Gap Work Plan and Focused SCM, initially requested to be submitted within 45 days of our September 26, 2014 meeting (November 10, 2014). Per our discussion, I have extended the submittal date to March 20, 2015. I will update Geotracker shortly. I look forward to reviewing the document.
