Due to the delays in receipt of the analytical data, please use this email to document ACEH concurrence with an extension to June 26, 2015. I have updated Geotracker already with this change.

Mark:

We have completed the field work at the above referenced site. It looks like we may not get our soil vapor data until after Memorial Day. Would it be possible to get an extension on the report from June 5 to June 19?
