Subject: Property Access by the Parties Responsible for the Investigation and Cleanup of Petroleum Hydrocarbon Contamination at Fuel Leak Case No. RO0000082 and Geotracker Global ID T0600138389, Nady System Inc., 1137 65th St., Oakland, CA 94608

Dear Mr. Helfant and Ms. Judith M. Wadsworth:

Alameda County Environmental Health (ACEH) is overseeing the investigation and cleanup of total petroleum hydrocarbons as diesel, total petroleum hydrocarbons as Stoddard solvent, perchloroethene, trichloroethene, vinyl chloride and 1,2-dichloroethene contamination released from underground storage tanks at the subject site. We are uncertain as to how far the contamination from those tanks has moved.

ACEH is requiring Nady System Inc. to investigate and clean up contaminated soil and groundwater at the site to prevent the hydrocarbon and solvent contamination from spreading to other properties or to drinking water sources and reduce the potential threat to human health and the environment. To properly determine the extent of that contamination in groundwater, Nady System Inc. must perform additional off-site investigation. Therefore, we need your help in allowing access to your property by Nady System Inc. to properly define the extent of contamination.

If you have any questions, please call Mark Jonas of Conestoga Rovers and Associates at (510) 420-3307.

Sincerely,

Barbara Jakub, P.G.
Hazardous Materials Specialist
Local Oversight Program
