NOTICE TO COMPLY

Mr. Nissan Saidian

Subject: Fuel Leak Case No. RO0000085 and GeoTracker Global ID T0600101487, Oakland Truck Stop, 8255 San Leandro Street, Oakland, CA 94621

Dear Mr. Saidian:

Alameda County Environmental Health (ACEH) staff has reviewed the fuel leak case file for the above-referenced site. In correspondence dated January 12, 2010, ACEH provided technical comments on the document entitled, "*Feasibility Study and Semi-Annual Groundwater Monitoring Report, First Quarter 2009, SF Oakland Truck Stop, 8255 San Leandro Street, Oakland, Oakland, California,*" dated July 8, 2009 (FS). The FS, which was prepared on your behalf by Matriks Corporation, presented three remedial technologies for consideration and recommended ozone sparging with hydrogen peroxide injection for site remediation.

ACEH requested that you submit a Pilot Test Work Plan or Remedial Action Plan to implement the recommended alternative no later than March 31, 2010. Semi-Annual Groundwater Monitoring Reports dated July 9, 2010 and November 3, 2010 each included a recommendation indicating that a Work Plan would be submitted. However, to date, we have not received a Pilot Test Work Plan or Remedial Action Plan. Implementation of site characterization and/or cleanup at this site is necessary to be protective of human health and the environment and to move this case towards completion. Please note that as Responsible Parties, you are required by California Code of Regulations, Title 23, Division 3, Chapter 16, Article 11, §2720 through §2728 to characterize the site and implement corrective action.

In order to regain compliance, please submit the Pilot Test Work Plan or Remedial Action Plan as requested in our January 12, 2010 correspondence no later than March 31, 2011. Failure to submit the requested document by the due date specified below may result in issuance of a Notice of Violation and possible enforcement action by the District Attorney and/or ineligibility for reimbursement of corrective action costs incurred at the site from the Underground Storage Tank Cleanup Fund. Furthermore, ACEH may recommend removal of this site from the Underground Storage Tank Cleanup Fund.

Responsible Party(ies) Legal Requirements/Obligations

REPORT REQUESTS

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.

ELECTRONIC SUBMITTAL OF REPORTS

ACEH's Environmental Cleanup Oversight Programs (LOP and SLIC) require submission of reports in electronic form. The electronic copy replaces paper copies and is expected to be used for all public information requests, regulatory review, and compliance/enforcement activities. Instructions for submission of electronic documents to the Alameda County Environmental Cleanup Oversight Program FTP site are provided on the attached "Electronic Report Upload Instructions." Submission of reports to the Alameda County FTP site is an addition to existing requirements for electronic submittal of information to the State Water Resources Control Board (SWRCB) GeoTracker website. In September 2004, the SWRCB adopted regulations that require electronic submittal of information for all groundwater cleanup programs. For several years, responsible parties for cleanup of leaks from underground storage tanks (USTs) have been required to submit groundwater analytical data, surveyed locations of monitoring wells, and [other](#) data to the GeoTracker database over the Internet. Beginning July 1, 2005, these same reporting requirements were added to Spills, Leaks, Investigations, and Cleanup (SLIC) sites. Beginning July 1, 2005, electronic submittal of a complete copy of all reports for all sites is required in GeoTracker (in PDF format). Please visit the SWRCB website for more information on these requirements (http://www.swrcb.ca.gov/ust/electronic_submittal/report_rqmts.shtml).

PERJURY STATEMENT

All work plans, technical reports, or technical documents submitted to ACEH must be accompanied by a cover letter from the responsible party that states, at a minimum, the following: "I declare, under penalty of perjury, that the information and/or recommendations contained in the attached document or report is true and correct to the best of my knowledge." This letter must be signed by an officer or legally authorized representative of your company. Please include a cover letter satisfying these requirements with all future reports and technical documents submitted for this fuel leak case.

PROFESSIONAL CERTIFICATION & CONCLUSIONS/RECOMMENDATIONS

The California Business and Professions Code (Sections 6735, 6835, and 7835.1) requires that work plans and technical or implementation reports containing geologic or engineering evaluations and/or judgments be performed under the direction of an appropriately registered or certified professional. For your submittal to be considered a valid technical report, you are to present site specific data, data interpretations, and recommendations prepared by an appropriately licensed professional and include the professional registration stamp, signature, and statement of professional certification. Please ensure all that all technical reports submitted for this fuel leak case meet this requirement.

UNDERGROUND STORAGE TANK CLEANUP FUND

Please note that delays in investigation, later reports, or enforcement actions may result in your becoming ineligible to receive grant money from the state's Underground Storage Tank Cleanup Fund (Senate Bill 2004) to reimburse you for the cost of cleanup.

AGENCY OVERSIGHT

If it appears as though significant delays are occurring or reports are not submitted as requested, we will consider referring your case to the Regional Board or other appropriate agency, including the County District Attorney, for possible enforcement actions. California Health and Safety Code, Section 25299.76 authorizes enforcement including administrative action or monetary penalties of up to \$10,000 per day for each day of violation.
