Subject: 2124 Livingston St, Oakland, CA - GeoTracker Site Claim & Upload

Subject Site: West Coast Vending
2124 Livingston Street
Oakland, CA 94606

Dear Mr. Wickham,

Pursuant to our phone conversations throughout the last month and most recently earlier this week, Mr. Bruce Bauer, Responsible Party for the subject site, has retained Ami Adini & Associates, Inc. to provide our services to bring the subject case into compliance with your office. On behalf of the Responsible Party and AA&A, we look forward to working with you to get this case closed.

Your most recent letter, dated Feb. 28, 2011, issued a Notice of Violation at the subject site and requested that the site be claimed on the GeoTracker database and all required case data be uploaded. On March 18, 2011, AA&A, on behalf of the RP, sent the request to claim the site. The request was approved by Mr. Hamid Foolad of the SWRCB on March 23, 2011. Additionally, AA&A reviewed all past reports and data available from the RP and on the Alameda County FTP, and uploaded the Site Assessment Workplan dated April 25, 2000 (prepared by North State Environmental). The Alameda County FTP server contained all available data for the subject site, and is up-to-date.

Based on recollections of Mr. Bauer, the approved site assessment in the April 25, 2000 Workplan may have been conducted sometime in 2000 or 2001, however, *at this time*, there are no records of the findings. Mr. Bauer is continuing to review his archived files to locate the Site Assessment Report. If it is found, we will promptly upload it to your FTP server and the GeoTracker database.

Mr. Wickham, pursuant to your Notice of Violation dated February 28, 2011, we are pleased to report that the subject site fulfilled the requirements to bring the case into compliance before the deadline of March 31, 2011.

We request that you copy AA&A on future correspondence regarding the subject site, so that we may ensure the RP remains in compliance and required actions are responded to a timely manner. Our email addresses are:
