**Re: Extension for Submittal of Risk Evaluation for 106-110
Hegenberger Rd., Oakland CA 94621**

Dear Ms. David:

Our office received your February 13, 1996 request for a sixty (60) day extension for the submittal of your risk evaluation for the above site. We have also spoke with Mr. William Dugan your consultant. Based on his need to familiarize himself with the ASTM RBCA document and methodology, our office grants a 60 day extension. Please, therefore, submit the requested risk evaluation including any additional recommendation for remediation to our office by **April 20, 1996.**

You may contact me at (510) 567-6765 if you have any questions regarding this letter.

Sincerely,

Barney M. Chan
Hazardous Materials Specialist

c: Mr. W. Dugan, Dugan Associates, 1023B Martin Ave., Santa Clara, CA 95050
