Kent Reynolds of the Source Group called regarding last directive and meeting. Client is concerned that they were headed towards risk-based closure but last correspondence and meeting with ACEH changed that direction. Client concerned that end goal is not clear and they would continue indefinitely. He requested that Water Board review case. I indicated this was not typical for cases particularly where ACEH had provided a clear directive. He asked if there was a way that we could provide a clearer picture of the final site objective. Use of ESLs as cleanup goals was recommended by Kent Reynolds. I indicated that I would think about and discuss the case with Donna Drogos.
