Phone call with Facility Engineer at Oakland Coliseum. They received the ESI Compliance letter and want to know how to stay in compliance. He was not aware of a fuel leak case at site. For this inactive case with no data collection since 2001, they need to follow instructions to claim case in Geotracker. If no data collected since 2001, no further uploads currently required for Geotracker. Claiming the case in Geotracker does not change their status or obligations for the case. I need to review the case and provide a directive to move case forward. I do not have a schedule for review, case has been a lower priority. They are not requesting that case be given a higher priority at this time.
