8/5/04, 1227p, jim jacobs, want to put wells in & dissolved O2 to start bio project, client wants to move fwd, 415-381-5195

8/23/04, 445p, - Jim Jacobs, ,

Eagle Gas, told him not concurring w/WP, does not have 3-D plume configuration, cannot propose treatment without knowing where contaminant plume is. He just wants to get bio in there cause it takes a long time to cleanup. How does he know that treatment method is appropriate when he does not understand the plume? Told him will need to discuss site w/RP re: WP, consultants desire to implement WP, etc. I will schedule a CW to review site.
