Shawn, leasing gas station

RP & Clearwater doing work, has given them a lot of access, blocking his driveway & costing him lost revenue. He wants us to intervene in lost revenue. He also wants exact date all work at site will be finished.

Site contaminated, RP has to investigate & cleanup. Files are available on our website for him to review, gave him location. Additional investigation work being performed at site & cleanup plan underway. Do not have exact date all work at site will be finished. They have to implement cleanup then evaluate whether cleanup effective. If cleanup not effective then addtl work may be needed. Project just starting plan for cleanup so too soon to tell.

Told him he needs to work out access with the property owner he leases from. Have to give access to person who owns the property. ACEH provides regulatory oversight only, request that work be performed, site cleaned up & review reports. We do not get involved in access issues between property owner & renter nor any issues related to his rental agreement or financial arrangements. Told him he needs to work out his issues with the property owner he rents from.
