Subject: RE: status of PG&E Oakland GC Yard site
Attachments: ftpUploadInstructions_2010_0720Final.docx

Anne,

Please submit the Soil Investigation Work Plan to the Alameda County Environmental Health ftp site per the attached instructions in order for the document to be entered in our case files and reviewed.

Although I cannot provide the entire context of the discussions of our previous meeting, work at your site potentially leading to case closure can proceed independently from work at the nearby sites.

Regards,
Jerry Wickham

Subject: status of PG&E Oakland GC Yard site

Jerry,

As a follow up to our meeting in August where we discussed status and progress with the PG&E Oakland GC Yard, it is our understanding that the Alameda County Environmental Health Department will be reviewing case closure for the Oakland GC Yard located at 4930 Coliseum Way in Oakland CA, as an individual case, separate from its neighbors. Please let us know that you concur with our understanding of this.

As you may have already received, we recently sent you a copy of the work plan for the lead investigation, which will commence end of October. Please feel free to contact either myself at (925) 415-6381 or Yemia Hashimoto of AMEC/Geomatrix (510) 663-4210 to discuss should you have questions or comments.

Best Regards,

Anne Conner
