Subject: Followup to Conversation (RO112)

Hi Gregory,
As mentioned I wanted to followup with the links we discussed.

To determine which reports the County has in the case file, see the link below my name, and then use the link to the LOP records (center of page), allow pop ups, and then use the search tab at the top of the right hand blue column, choose LOP records, and then case number (using 112 as a short cut). You should be able to choose the correct site thereafter (as several are likely to be pulled up). See what we have and what we don't and then upload any reports that are not there – the instructions on how to do that are on all of our letters.

A link to the San Mateo County list of consultants (a bit dated, but still useful) is:

<http://www.co.sanmateo.ca.us/portal/site/health/menuitem.f44138fe5f6ec63d74452b31d17332a0/?vgnextoid=a7ac03508b0a0210VgnVCM1000001d37230aRCRD&cpsextcurchannel=1>

There's a printer friendly version at the top right if you want to print it off.

More importantly investigate the CA UST Fund (Underground Storage Tank Fund). You should be able to enter the fund as from our conversation you appear to have owned the USTs and that is a primary consideration. The length of time should not be a factor (at least I'm not aware that it is). Still the entrance form is rather extensive these days, is likely to be a pain, but should eventually make some funds available for your efforts to clean up the site.

Hope this helps.
