Subject: Notice of Enforcement Referral; Fuel Leak Case No. RO0000113 and GeoTracker Global ID T0600102194, Alameda Lock and Glass, 2301 Encinal Avenue, Alameda, CA 94501

Dear Mr. Hill:

This is a notice of an enforcement referral for the subject site. Site Responsible Parties are non-responsive to Alameda County Environmental Health (ACEH) requests and are recalcitrant. The site has accumulated a lengthy series of Notice of Violations from ACEH starting in 1996. As a consequence, ACEH is referring this site to the San Francisco Bay Regional Water Quality Control Board for enforcement actions.

Soil and groundwater samples from several borings placed adjacent to the three USTs were found to contain elevated lead concentrations (up to 840 ppb). The three USTs were then closed in place and no assessment work was ever performed. Directive letters, notice of violations, and enforcement letters have received no response.

Not all historic documents for the fuel leak case may be available on GeoTracker. A more complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.

Should you have any questions, please send me an electronic mail message at karel.detterman@acgov.org or contact me at (510) 567-6708.

Sincerely,

Karel Detterman, P.G.
Hazardous Materials Specialist
