Subject: Project Status - 1532 Peralta Street, Oakland (Fuel Leak Case #RO0000117)

Paresh,

Golden Gate Tank Removal, Inc. was tentatively scheduled to conduct the 1st Quarter 2009 groundwater monitoring and sampling activities at the subject property in late March 2009; however we have not been able to contact property tenants for site access. In general accordance with our October 27, 2008 and your most recent letter dated January 16, 2009, we are scheduled to install the three additional groundwater monitoring wells at the Site on Thursday, April 9, 2009, pending receipt of a minor encroachment/street excavation permit from the City of Oakland. I will notify you at least 72 hours in advance of the confirmed drilling date.

If authorized by the ACHCSA, we will coordinate the next quarterly monitoring immediately following the forthcoming well installation. Please contact us with any questions or concerns.

Regards,

Brent A. Wheeler
Project Engineer
