Jeff,

I spoke with Brent Wheeler today regarding the case status for the Osagie Property. ACEH had approved a CAP in May 2010. I had inquired if the CAP was implemented and what was the current case status as ACEH has had no further report submittals since the CAP. Mr. Wheeler said the CAP had not been implemented and that no additional work had been performed in the interim. He said he is reviewing the case for closure under the Low Threat Closure Policy. What Mr. Wheeler will recommend to the RP will be based on the findings of his review. He indicated he may encourage the implementation of the existing CAP, modify the CAP to provide LTCP data, or some other action. Mr. Wheeler is aware of the Fund sunset date, that a revised CAP may need a new public participation period, and that a new CAP will need a new public participation period. I will issue a letter if I don't hear back from him in a timely manner.

Regards,
Keith Nowell
