Brent,

Thank you for the update. Please let me know when the laboratory analysis report becomes available so a meeting can be scheduled.

Thank you Keith.

We hope to schedule the groundwater sampling at the site within the next two to three weeks. Once we confirm a field date, we will notify you further. The meeting may have to be pushed back until middle of March, so that we have time to review the data prior to our discussion.

Proposed meeting times & dates:
March 1 between 9 and 12 or March 3 anytime.
Let me know what works best. Also- will this include a conference call?
Regards,

Keith
