Woody,

That would be fine. You have kept me updated with the work and it looks like decent progress is being made. Please use this email to document ACEH concurrence with the request to extend the submittal deadline to July 2. I'll update Geotracker shortly.

Mark:

We need to request an extension for submittal of the SVS report from 1 June to 1 July. We have completed the fieldwork, but have not received the lab results as of yet, so we won't have sufficient time to review and write a report.

The SRS/PPS report will be submitted by 1 June as requested.

Thanks
