Get site closure req from consultant under control

Discussed calls I am getting from Cambria re: individual req for closure, thought she handled this & agreed to get me a list of sites they want CL for & we will review all cases with her to determin case priorities, that numerous requests for low risk CL on sites will not be a priority over high risk sites. She agreed to do this was not aware Cambria continuing to pursue, she will contact Cambria.

Karen @ Chevron will address withj her consultant

CONTACT LOG (5910 MacArthur Blvd.)

6/25/97 Contacted Phil Brigg, Chevron, (510)842-9136,
to inquire about the UCR submitted. Mr. Brigg
stated that he submitted the UCR due to levels of
benzene, up to 120ppb, identified in the groundwater
during a property assessment. Will get report to
me soon.
