Jeremy,

Your request for a 30-day extension (second extension request) is acceptable. Please note that additional requests may not be accepted and a Notice to Comply may be issued.

Sincerely,

Paresh C. Khatri

Paresh

Good morning, as you are aware, the FS report is currently due today. I wanted to contact you regarding the report. We currently have put together a Draft FS report for the site. On Monday June 21<sup>st</sup> we have set up a meeting with the client to discuss the FS and recommendations going forward. Due to scheduling conflicts, we have not been able to meet prior to this. Following the meeting, we should be able to finalize the report once all the clients comments are incorporated into the report. Therefore, I would like to request a 30-day extension for the report. I will keep you updated if there are any unforeseen delays.

Thanks

Jeremy Smith, REA II

Paresh

Good morning, I wanted to send you a quick email updating you with the status of the work at the subject property. On February 22, 2010 we requested the due date for the feasibility study report be extended to April 19, 2010. Unfortunately we have not been able to complete the report yet, however, the bulk of the field work has been completed. As earlier stated, offsite wells MW-7 through MW-10 have been installed, developed, and sampled. The majority of pilot study activities have also been completed. We are currently working through the data to put together the best report possible, and come to an agreement with the client on the best remedial option moving forward. Therefore, AEI would like to request a 60 day extension for the submittal of the Feasibility Study Report. We are hopeful to issue the report before 60 days (June 18, 2010) however would request your concurrence with the additional 60 day extension. Please feel free to contact me if you have any questions concerning the completed work or extension request.

Regards

Jeremy Smith, REA II
