Barney no longer CW, has questions about site  
reassigned? time critical?

discuss site, will be assigning to a new hire for case review & followup  
waiting for access, direct push in city r/w  
soil more dirty, more SB needed to define  
move 5-10' to r/w, map og boring locations  
status ltr 1.5 weeks ago submitted

WP approved, implemented part of it  
found more contamination than expected  
propose addtl borings  
also move some borings 5-6' away into r/w as access problem

requested he upload new locations & identify WP & will try to have someone look at.
