RETURN REIJO RATILANIEMI'S CALL REGARDING SITE.

He informed that a DPE pilot test report is nearly complete and will be submitting the report in the near future. He is also interested in knowing whether the case has been assigned to a caseworker so that cleanup progress can be initiated on all ends. I informed him that I am the new case worker for the site and I completed review of the case and a Draft letter is pending review and will be mailed within a week or two.
