Subject: 90517 Oakland - RO138

Mark,

Per my voicemails, unless we hear from the tenant today that they accept and confirm the schedule, we will need to cancel the work again. The driller graciously put us back on their schedule after we canceled April 28, Stantec have made sure their people are available and I have been coordinating with the waste hauler to ensure they can pick up at 4pm on that Friday.

Our legal department reviewed the initial response and did not consider their response as access to the property.

Let me know if you have any questions.

Thank you,

Carryl MacLeod
