Hello Jerry:

Thank you for requesting an extension. Even though there is only one groundwater monitoring well to destroy, it's located in the street and I know from experience, that the resource-intensive portion of this work will be obtaining an encroachment permit from the City of Oakland to work in the street. I encourage you to request bids from at least two other consultants for the well destruction. I've included a link to San Mateo County's web site which provides a list of local consultants:

Subject: Well distruction RO0000140

I just got the estimate to destroy the well at 3080 Broadway Oakland. I require time to take this project on. The cost is considerable and I am in a cash flow down turn at present. I will need six to twelve months to recover and would like an extension to accomplish this project. A.C.C. environmental does not take payments and I do not have at present funds to pay the bill all at once. I hope you can grant an extension please notify me as to the outcome of my request.

Thank You
