**Start:** Tue 9/9/2008 11:33 AM  
**End:** Tue 9/9/2008 11:33 AM  
**Duration:** 0 hours

Phone call with Meredith Brown. She is working on and will pass along an access agreement for well installation and soil vapor sampling to School Board for approval around September 24. Fuel hydrocarbons were detected in groundwater sample collected on corner of school property. I referred her to the Alameda County Environmental Health website for case files and indicated that she could pass along my contact information to County Counsel if there are further questions. Wells would need to be on site for a minimum of one year. The total time is dependent upon results of investigation and cleanup.
