

CONTACT LOG (1911 Telegraph Ave, Oakland)

10/28/99 I called Melissa Correll, JT Corp, 925-288-9898, to tell her that I just received the document she was referring to which responded to Comets Sept 10 '99 letter. I also mentioned that Chevron was not listed as an R.P. because they did not remove the USTs and that years had passed after Chevron left before the USTs were removed which made it ~~difficult~~ impossible to know whether the leak occurred during or after Chevron's operations @ the site. I mentioned that soil samples collected from the barge should be collected from above the capillary fringe to determine whether soil samples at the site are impacted w/ VOCs w/o being influenced by the g.w. contamination.

10/28/99 Called Scott DeMuth, Sears, 1-847-286-5530, and stated the same info as above to Melissa Correll.

10/28/99 I called Melissa Correll. Discussed why Chevron was not listed as an R.P. Discussed the work summarized in the letter today & primarily the VOC issues. Ms. Correll stated that drilling will take place on site ~~at~~ on Nov 2nd @ 8AM. David Polay will be the geologist on the site.

CONTACT LOG (1911 Telegraph, Oakland)

- 06/25/99 David Barrow, IT Corp, 925-370-3990 #256 called to say that he was working on the response to my May 11 '99 letter. He said he would have it to me by July 8 '99.
- 07/09/99 Called David Barrow, IT Corp, to find out status of the submittal of responses to May 11 '99 letter. He said he completed it and it is being reviewed by Gary Roberts in Chicago. It should be to County by next wk.
- 08/04/99 Lvanita, IT Corp, 1-925-370-3990 #274 called to say G.W. Monitoring out at Site will take place on Monday, Aug 9 '99.
- 10/25/99 Called Melissa Cassell, IT Group, (925)288-9898. Told her we received Third Qtr '99 report on Oct 8 '99 & that the lab analyticals for 8010 for Wells 1, 3, & 7 were not included in report. Requested that she submit copies.
- 10/28/99 Left message for Melissa Cassell, IT Corp, to get back to me to discuss the Oct 21 '99 w.p. It does not address VOCs or the confirmation of well construction for MW-5 through MW-7, per the County's Sept 10 '99 letter.
- 10/28/99 Melissa Cassell, IT Corp, did call back & stated that they wanted a separate letter in response to Sept 10 '99 letter. She asked why Chevron wasn't listed as an R.P.

CONTACT LOG (1911 Telegraph, Oakland)

- 05/18/99 ~~Call~~ Scott DeMuth, Sears, 1-847-286-5530 called & left message.
- 05/19/99 Returned Scott DeMuth's call. He is working on gathering the data requested in May 11, '99 letter. He only received letter on May 17 '99, so I extended deadline for info to end of June '99. So far, he was able to locate a Feb 26 '96 Monitoring Report by Gale/Jordan Associates and a Workplan, dated Feb 7 '94, by Subsurface Consultants proposing the installation of wells MW5, MW6, + MW7. He will try & locate the report documenting the installation of those wells. He doesn't know when Chevron ceased operation of the tanks at the site. There was a Good Year Tire Center at the site at the same time as Chevron.
- 5/21/99 Scott DeMuth, Sears, 1-847-286-5530, called to update me on info he was able to dig up. The four USTs were removed by Dammers and Moore for the Chevron operator at that time, which was Carter-Holly-Hale. He is sending info to IT Corp, who will forward it to me.
- 05/26/99 Called Scott DeMuth and let him know I got his message.
- 06/21/99 Called and left message for Scott DeMuth, Sears, requesting he have his consultant, IT Corp, address all bulletted questions on my May 11 '99 ~~rep~~ letter. Told him I received copy of Nov '92, Feb '94 & Feb '96 reports that were missing from our files.

CONTACT LOG (1911 Telegraph, Oakland)

- 05/11/99 Left message for Melissa Crossell, IT, (925) 370-3990 ext 266. Requested that she return my call.
- 05/14/99 Melissa Crossell, IT Corp, 925-370-3990 #266, called & said that they don't have the files between Oct 93 & Nov 95. In fact, they have very few files. She recommended that I contact Scott De Muth, Sears, @ 1-847-286-5530.
- 05/17/99 David Bero, IT Corp, 925-370-3990 #256, called & requested that I call him back w/ info on site. 925-370-3990 ext 256
- 05/18/99 Called David Bero, IT Corp. He stated that he is the Technical Staff working on the site & that Melissa Crossell is his supervisor & the Project Manager. He requested that I copy him, in addition to Melissa, on all future letters. Discussed site. He said he has very few files on site & stated that he may need to conduct file search. He doesn't know when Chevron left the site. It appears that Eugene Capwell removed the tanks. I faxed him a copy of my May 11 '99 letter to Scott DeMuth.
- 05/18/99 Called & left message for Scott DeMuth, Sears, 1-847-286-5530, requesting any info on missing files; to find out whether Chevron pulled tanks, or when they left site; and to discuss site. IT Co did not have copies of necessary files. Requested that he call me back
