Start: Fri 3/28/2008 1:00 PM
End: Fri 3/28/2008 1:12 PM
Duration: 12 minutes

Contacts: Charles H. Pardini
Categories: Phone Calls

Returned call from Chuck Pardini with LFR. He received the March 19, 2008 correspondence and wanted to address some of the technical comments. He said some of the items requested in the correspondence were already completed, such as that the monitoring wells were already installed based on conversations he had with Donna Drogos. He also said that the reports should already be uploaded already to GeoTracker. I asked if all the associated EDFs were uploaded with the PDF version of the report. He said he would check since he was not 100% certain. I also asked about the contaminants in soil that were above the cleanup goal. He said that due to site constraints, some residual impact above cleanup goals was left in place. He also wished to respond in a memo to address the items in my letter. I said that was not a problem and look forward to the comments.
