We have received your petition to review the above case for closure pursuant to Health and Safety Code Section 25296.40, subdivision (a)(1). We plan to understand both the basis for your petition and the lead regulatory agency's reasons for denial of site closure.

The conclusion of this review will result in either denial of the petition, closure of the site, or another course of action as determined by the State Water Resources Control Board.

We look forward to establishing the pertinent facts in your case and resolving your petition in a fair and expeditious manner. If you have any questions, please contact Ben Heningburg at (916) 341-5749.
