Re: Corporation Yard Ground Water Monitoring  
Mills College, Oakland, California  
*Project No.: K275-H*

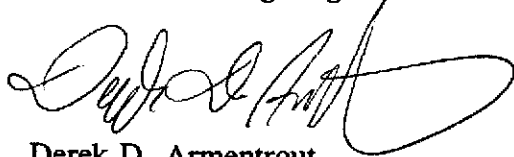

Dear Ms. Logan:

This letter confirms that ground water monitoring at the Mills College Corporation Yard in Oakland, California, will be conducted on a semiannual schedule following the second quarter monitoring performed in April 1995. The next monitoring event is scheduled for October 1995. The change to a semiannual schedule was recommended in *Monitoring Well Installation and Second Quarter 1995 Ground Water Sampling Report* (Harza, June 19, 1995) and was approved by you on July 19, 1995 (verbal conversation with Derek Armentrout of Harza). Monitoring of five existing wells will be performed as described in the above referenced report.

Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

**Harza Consulting Engineers and Scientists**

Derek D. Armentrout  
Project Chemist
