JET,

As follow-up to our meeting held on 10/12/16 a draft PEP has been prepared and submitted to State Water Board staff for review. See attached. If you don't have any comments, please respond letting the JET know that you have no comments.

Next steps:

1. JET members send comments to State Water staff. The ECAP unit must receive a response to the draft PEP from all members of the JET. If you concur with the proposed scopes of work in the draft PEP, send an email to the JET stating that you concur with the proposed scopes of work. If you have comments or suggested changes they must be sent to the entire JET for consideration. Send concurrences and or comments to the entire JET via email within 10 working days.
2. State Board staff addresses comments and sends out a revised final PEP to JET, which includes an agreement date.
