**Subject:** RE: ACEH Correspondence for RO36-Jan 3, 2014

Hi Karel:

I just got a call today from Dania from Env't Soil Tech. She said they are the new consulting firm for this site. She explained that this property at 3635 13<sup>th</sup> Ave, Oakland has been sold and a new owner has since bought the property (when?). I told them there are several Notice of Violations on this site and to contact you ASAP to update the new owner information and what monitoring or remedial work that needs to be completed. She would let her boss know and he or she would contract you ASAP.

She called because it appears that in 2008 a work plan was approved by Barbara Jakub for some work to be done by AEI consultants. Three soil gas SG-1, SG-2, and SG-3 were installed and a MW-7 was indeed installed and inspected by our office in 2009 (Permit No. W2008-0748-0751). She wanted any report by AEI consultants to this. No report by AEI was found in my office. Dania also cannot find this information from Geotracker. I also do not see a report of this in Geotracker. We do have the drilling permit applications and also the wells logs for these wells if you need it.

Hopefully something will come through.

Happy New Year to all.

James
