Discuss requirements for City of Oakland encroachment permitting with Adrian Angel.

Consultant needs to send a letter to Calvin Wong, site plan of where wells can go, no wells are allowed in sidewalk, wells should be in a parking lane, \$500 for permit fee, copy of notarized grant deed is needed, detailed schematic of well cover and casing, insurance certificate, by owner, legal tenant only. \$300,000 insurance for each occurrence, property damage not less than \$50,000, Real hurdle is the verbiage that is required. Insurance companies do not like underwriting this verbiage. These consultants have not gotten a list of insurers from City of Oakland. Adrian is to e-mail me the verbiage and other requirements from City of Oakland. He will also try getting a list from City of Oakland with insurance companies that can

We also discuss the ozone sparge pilot test. He talks about successful implementation at a sandy site where they placed sparge points approximately 7 feet apart. They were able to achieve 90% destruction.
